EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.
2. The application has been amended as follows:

Claim 4, line 27, the recitation "The system as in claim 1" has been amended to –
The system as in claim 3--.
3. Authorization for this examiner's amendment was given in a telephone interview with Mr. David H. Sitrick on November 24, 2004.

REASONS FOR ALLOWANCE

4. Claims 1-34 allowed over prior art.
5. The following is an examiner's statement of reasons for allowance: the prior art made of record does not teach or fairly suggest in combination a system and method for transferring a plurality of scheduled data packets from at least one source to at least one destination, wherein the transfer of the scheduled data packets are provided during respective ones of a plurality of predefined time intervals, wherein each of the predefined time intervals is comprised of a plurality of predefined time frames, the system comprising: a virtual pipe comprising at least two switches interconnected in a path via communications links, each of said switches having a plurality of input ports and a plurality of output ports; a common timing reference signal coupled to each of the

switch; wherein for each of the input ports of each switch there is an associated a predefined position within a first predefined time frame within which a scheduled data packet is transferred into the respective input port and an associated separate predefined position within a second predefined time frame within which the respective scheduled data packet is transferred from the output port out of the respective switch.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

(US 5,455,701) Eng et al disclose a packet switching apparatus using pipeline controller.

(US 5,251,209) Jurkevich et al disclose a system and method of transmitting information between a multiplicity of subscribers as components of traffic in an integrated services network. The information traffic consists of a multiplicity of media types associated with respective ones of the different subscribers including voice, video and data traffic component types.

(US 5,742,606) Iliadis et al disclose in a communication switch with input and output queue, which handles different priority classes of traffic (e.g. video, and audio
